**Public Comments:**

Rick Tarulis commented on the upcoming agendum regarding the changing of the fiscal year. He stated that when he was supervisor, it made much more sense to have the fiscal year based on the calendar year. Further, the idea of changing back to a none calendar year asked for by the assessor was baseless, because the assessor is not directly involved in the filing of budgets and levies, and the fiscal year dates should not cause any burden on the operation of the assessor's office. Mr. Tarulis then stated that while he was supervisor, several other township supervisors were unaware that they could change to a calendar fiscal year, express an interest, and that a calendar fiscal year had many practical advantages over the April to March fiscal year.
